GREATER FIGHTING LIES AHEAD

London, Sept. 18.—Splendid as were the results obtained in the recent fighting, it is necessary to realize we have not reached a supreme decision. The Germans showed great strength, skill and stubbornness in the defence. They withdrew much artillery. Their losses were sacrifices made as the price of a forced retreat. Their main forces are yet to be defeated. We have weakened their morale, shaken their confidence, destroyed and captured an appreciable number of troops, but is a mere delusion to believe we have destroyed their military strength. Greater fighting lies ahead.

What the recent fighting proved is that the Canadians and other allied troops can successfully attack and defeat picked German armies, in superior numbers, in their entrenched positions. The most high military authorities agree we have probably fourteen months of fighting ahead before the final decisive victory can be obtained.

CHARGED WITH ATTEMPTED MURDER

Charged with attempting to murder one Sam Johnson, a farmer living near Jenner, W. R. Dean, a member of Lord Strathcona's Horse, was tried before Justices of Peace A. Weisland and W. Stevens, at Jenner and committed for trial. He was taken to Calgary Sunday. The cause of the trouble is said to have been jealousy, as high men were courting the same girl.

Moosa Jaw, Sask. Sept. 18.—About 12:30 o'clock last night, William Bromley, driver for the Dominion Express Company, walked to the central police station and horrified the sergeant in charge by calmly stating that he had murdered his five children by cutting their throats, and that they had better look him up. Bromley was accompanied by his wife, who heard the terrible news for the first time when her husband, who had appeared perfectly sane to her, told the story to the police.

Bromley was left at home, with the children, while the wife went to a picture show. She returned some time about 11:30 o'clock, but Bromley refused to allow her into the house. She argued with him, and he finally asked her to go to the police station with him and she would then learn the reason. The police who rushed to the house found the children on a bed each with its throat cut so badly that the heads were practically severed from the body.

CALGARY WOMAN SUICIDES

Calgary, Sept. 17.—Less than four hours after she was missed from her home this morning, the body of Mrs. Milroy, wife of Robert Milroy, 528 Third Avenue, S.W., was taken from the Bow river, just west of the Louisa bridge. In making a search of the house this morning, Mr. Milroy found a brief note, which was left by his wife, in which she said she was going to drown herself in the river. When she left home at an early hour today, Mr. Milroy did not think anything of it, believing that she was just going out for a walk, but he did not see her again until summoned to the undertakers' by the police.

Coroner Dr. T. A. Wright was called to the morgue this morning and he learned from Mr. Milroy that the deceased had been suffering from insomnia for more than a year and she had become mentally deranged as a result.

Mrs. Milroy, who was 41 years of age, came to Calgary from Aberdeen, Scotland, in 1911. She is survived by her husband and one son, three years old.

It is reported in the Calgary papers that Rev. Dr. W. J. Siggrell, of the Mt. Pleasant Methodist Church, Vancouver, has received a call to the Central Methodist Church, of Calgary. Mr. Siggrell was at one time the head of the Columbia Methodist College at New Westminster, and is a preacher of exceptional ability. He has the commendable quality of possessing lots of "pep," and is a live wire on his job.

BRITISH TROOPS ACTIVE

With the British Armies in France, Sept. 17.—Another small, but important bulge of the Ypres salient into German territory forced by the British troops yesterday when they attacked on a front of 2,000 yards along the Menin road and drove the Germans back for a distance of 300 yards.

This advance carried Field Marshall Haig's men within a mile of Hoesse, which figured in many fierce conflicts in previous fighting.

Further south the British at the same time pushed north-eastward at Ploegsteert and established posts 200 yards in advance of the old line which they had occupied before the German drive began in March.

POLICE COURT

In the case of W. Maloney vs. Neirheim, in a claim for wages in the police court on Wednesday the 18th, Neirheim wanted to settle at \$7.00 a day. This offer was declined by Maloney, as he was hired at \$8 per day. Judgment was given to Maloney for full amount of wages, plus \$10 for loss of time awaiting settlement. Mr. H. O. Haslam acted for the prosecution.

NO MORE WORK THIS YEAR ON HUDSON'S BAY RAILWAY

Ottawa, Sept. 17.—It was officially stated at the department of railways today that, owing to the impossibility of securing steel rail further construction work on the Hudson's Bay railway will be practically discontinued for the season. An arrangement has been made whereby the Canadian Northern railway will provide a service from the Pass to Mile 139, the section of the road which has been provided with a limited contractor's service. It is pointed out that in view of the fact that terminal facilities have not yet been provided at Port Nelson, there is no particular object to be served in laying the rails through to the Bay this season even if they were available.

CANADIAN CASUALTIES LIGHT

Canadian casualties sustained in the fighting in which the corps has recently participated to its father and glory are declared to be surprisingly light. It is estimated that they total between five and six thousand and are less than the prisoners captured they are in fact lighter by far than any sustained by the Canadian troops in any former engagement of importance. The extensive use of tanks is believed to be largely responsible for this.

For comparison, the second battle of Ypres may be cited which cost the first Canadian division alone 5,000 casualties. The taking of Vimy Ridge where 13,461 casualties were sustained; Lens were losses totalled 10,344; Hill 70, where the Canadian losses were 10,880, and Passchendaele ridge, in the taking of which last autumn the heavy toll of 24,520 casualties were sustained.

BRITISH SUCCEED ON WESTERN FRONT

London, Sept. 18.—The British have penetrated the enemies' defenses northwest of St. Quentin to a depth of three miles and captured more than 4,000 prisoners. Field Marshall Haig reports tonight. The British have captured Fresnoy-Le-Petit, Bethancourt and Poutun and the Australians have occupied Legerueque, Villers and Hargicourt. The high ground south of Gouzeaucourt has been carried by the British who have reached the outskirts of Villers-Guislain and occupied Gueuchow. Templeux-Guarent, Ronsoy, Epheby and Pailleur, have also been taken, the troops penetrating to a great depth along the line.

Serbs and French troops are becoming active again. They made a successful attack on Bulgarian troops near Monastir, and took several important positions.

Social Service League Tag Day

The Social Service League are putting on a tag day next Saturday, for the child's welfare department.

Claresholm Art Studio

We beg to announce that we are now open for business. We are open for any kind of Photographic work, specializing in Farm Scenes, Threshing and Stock. EDITORIAL NOTES

In taking over the Review-Advertiser, it is our purpose to give the public the very best local weekly newspaper possible. In last week's issue, the editor truthfully stated that there is no town in Alberta of the size of Clareholm that has a more creditable sheet. It will be our constant endeavor to keep the Review-Advertiser up to the high standard that Messrs Chambers & Peck have set.

An experimental farm bulletin sent to us from Ottawa, arrives fall plowing as a means of eradicating weeds. The progressive farmers of the Clareholm district can show them a trick worth a dozen of that. Our farmers simply turn a nice flock of sheep loose on summer fallow, thereby exterminating the weeds, raising a most profitable crop of wool and mutton, and incidentally making the soil more productive.

It is officially reported that during the year ending with June the British farmers brought down more than four thousand enemy machines, with a loss to themselves of slightly more than one thousand. A better record could hardly be expected than that. The enemy cannot start the pace in the air, and with the increase in construction in the United States the pace should get faster rather than slower.

It is now disclosed that the poison recently found on the rubber rings of fruit jars is not due to German contamination at all, but to the inferior composition from which the rings are now being made. In other words, the Huns are only indirectly responsible as the people who started to eat, making rubber scarce that the inferior composition became necessary.

Baron Shaughnessy, of the C.P.R., is quite fair in his statement concerning government ownership of railways. If the government owned lines are operated from politics everything will be all right, he thinks. And this is the opinion of the bulk of the Canadian people. The question is, will politics be kept out of the management of the government roads?

Several Alberta towns found themselves facing a sugar famine last week. The cause of the shortage appears to have been that the sugar barons at Vancouver came to the conclusion that Alberta was using too much sugar. Just what was back of this conclusion might well be a subject for investigation by the Dominion Government.

The St. Mihiel affair demonstrates the fact that the Americans are quite as well able to do things "on their own" as they are when working in conjunction with other armies of the Allies. Their success on the southern Lorraine salient was no freak result. It was an adventure carefully planned and most thoroughly executed.

The Alberta government now advises that where municipalities fail to keep their main thoroughfare in proper repair that the department of public works will step in and do the work and levy the cost against the municipality.

U. S. GOVERNMENT REJECTS

GERMANY'S PEACE FEELER

The United States, as fully expected, has unconditionally rejected Germany's peace feeler. In doing so, the government has spoken for all the co-belligerents. Almost immediately after receiving the Austrian government's note from the minister Sweden, Mr. Ekstrom, Secretary Lansing on Sept. 15 issued this formal statement:

"I am authorized by the president (to state) that the following will be the reply of this government to the Austrian government, proposing an unofficial conference of belligerents. 'The government of the United States feels that there is only one reply which it can make to the suggestion of the imperial Austro-Hungarian government. It has repeated, in common with entire candor, that the terms upon which the United States would consider peace, and can, and will, entertain no proposal for a conference upon a matter concerning

which it has made its position and purpose so plain."

Mr. Lansing's statement was given out within half an hour after he had received the Austrian proposal. It would have been forthcoming almost immediately upon the delivery of the Austrian note, had it not been found necessary in order to avoid the possibility of a grave error to make a careful comparison between the official text and that which was received in news dispatches on Sept. 15 from Amsterdam.

That emphasis was added to the declaration, if any were needed, the quickness of the reply indicating the existence of no doubt in the mind of the administration as to what it should be.

WHAT COMMON SENSE SHOULD TEACH US

The editor of a local paper was talking recently to a man who complained bitterly because the town fathers were it to increase the number of mills for the current year. He could not understand it at all, and said there was very lax management.

As it happened, the editor in question knew a thing or two about the complaining citizen, and he asked him:

"Is it right that you sent away half to the catalogue houses for practically all your family's winter requirements?"

"Well, I sent away a fair-sized order. What about it?"

"Did you ever take a half-hour out to figure out just where your property in this town would stand if I and everyone in town and district sent away for practically all our needs, you admit having done, last fall?"

"Never thought much about it," said the citizen, with some hesitation. "I consider that a matter of my own business."

"Well, that's where you are making a mistake. If all citizens were as loyal to the town as you are you'd have no chance to kick about the tax rate, because the value of your property be down to zero. We'd have no town left to pay taxes on. We'd go bankrupt in short order."

"This town," continued the editor, "depends solely upon the business men of the town for its life. Take away the business man and what have you left? Where would you be today if your ideas were to prevail? Instead of enjoying a good income from the property you own you'd be stone broke and have to hunt a job."

A Commensurate Duty

This instance—and it is not an isolated case—should teach us that it is the commensurate duty of every citizen to support his home community. When we send away our home-made goods for goods we hurt the town—and certainly what hurts the town MUST hurt us.

If we actually want to kill our own town we must not all join together and send to distant wholesale houses for one huge order, instead of keeping up a constant stream of orders to the small order houses. Better far to kill the town outright than by a process of chess-cloth or single bed slats.

But we did not build our towns up to be thus ignominiously destroyed!

Let us display commonsense and practise long, loyalty to the nearest town.

As workmen, alarmed men, farmers or professional men—and women—let us realize once for all that the town is FOUNDED ON FAITH AND PERPETUATED IN SERVICE.

This town is not built up for the purpose of selling a spasmodic pound of nails or a package of tea; it is not built simply to supply an odd yard of chess-cloth or single bed slats.

No! It is built for business, for growth and prosperity. It is built to do all the trade that legitimately belongs here. Every branch of business, profession and work must be given its due measure of support by all the people.

That's the way to make a town hum! That's the commonsense and economic perspicacity.

Of the upwards of one hundred million dollars' worth of business done by one of the big city mail order houses in 1917, not a penny of that money comes back to help pay our district taxes. It is not available for our schools or churches or for loans to the farmers.

Where do our interests lie? Our community duty is a serious matter and a vital one.

AUTUMN CULTIVATION FOR WEED CONTROL

(Experimental Farms Note)

The ploughing of the land in the fall is desirable as a part of the regular work of the farm, and enables the ground to be got into proper condition for sowing the seed in spring. It is, however, considerably more often, the case that it is perhaps of even greater importance as a means of keeping weeds in check. In the case of persons whose farms are turning up and exposing of the rootstocks to the action of the frost will serve as a cogitator.

WILLIS PIANOS

CANADA'S BEST

From a small beginning, and solely through the merits of the instrument, the Willis Piano Plant has grown steadily and today it occupies the position of being the largest exclusive piano factory in Canada.

Every Willis Piano bought helps to bring in new purchasers. Our customers are proud of their instruments.

Made in a variety of styles and finishes and sold on terms to suit all classes of purchasers.

Thanksgiving Day, Oct. 14

Thanksgiving Day this year has been fixed by the government for Monday, October, 14th. In selecting Monday the government has conformed to the practice adopted in recent years. Formerly Thanksgiving Day usually fell on a Thursday in late October or early November, but the Commercial Travelers' association and other bodies agitated for a Monday holiday earlier to increase the opportunity for family reunions during the month of Thanksgiving. This year there has been agitation to have the holiday fixed for a Thursday, and it has also been suggested that the Canadian holiday should conform to that of the United States which occurs in November.

STEFANSON HAS RETURNED

Vancouver, B.C. Sept. 18.—Back from the far north, William Stefansson, Canadian Arctic explorer, reached here late today on the steamer Sophia from Alaska. He leaves tonight for Victoria from which city he sailed over five years ago on the trip he is now bringing to a close.

Kamloops, B.C. has discarded the old fashioned Germanic board and appointed a commissioner or manager for the town. J. J. Cargill, who has been clerk and treasurer for many years, has received the appointment.

SUPPRESSING NEWS OF AMERICAN SUCCESSSES

London, Sept. 17.—Reuters's correspondent at British headquarters in the field telegraphs under today's date:

"During the past 24 hours, 1,131 prisoners have been captured by our concentrated forces. There is plenty of evidence to suggest all news of the American successes at St. Mihiel, concerning which alarming rumors prevail. The general impression seems to be that the American victory has been so overwhelming that the German army command dare not admit the facts."

ENFORCE DISPUTES ACT

The Industrial Disputes Act is to be carried out more effectively than heretofore. The Dominion police have been put in charge of its enforcement. It is against the law to go on strike, to refuse a strike or to induce others to do so, or to use violence or to use force or to use any other means to bring about a strike or to induce others to do so, or to use violence or to use force or to use any other means to bring about a strike or to induce others to do so.

St. Percy Sherwood has been voted with authority to lead industry or less recourse has been had to a board of conciliation and investigation, and this provision is more carefully executed.

CLARESHOLM GARAGE, Next to New Rex Theatre

Claresholm Local News

Mrs. Phoenix went to Calgary Monday morning.

Mr. Harry Taylor was a Calgary visitor this week.

Mrs. McCreminson and Mrs. Redfern spent last Sunday at Lethbridge.

R. S. Law sold his farm last week to Mr. Soliman and realized a good profit.

Mrs. W. A. Annable is leaving shortly for a visit to her mother in Regina.

Mr. Hoffman, of the United Grain Growers, Security Co. is in town this week.

Mr. and Mrs. Jas. McKinnery left last week on a visit to Mrs. Haslam at Redcliffe.

Mr. Salton, of the Grunum Herald, was a visitor at the Review-Advertiser last Friday.

J. H. Marsh, of Grunum, is making extensive repairs to his house next to the printing office.

E. V. Chambers sold his house, on Monday last to J. W. Walker, of the Bank of Commerce.

G. R. Maxwell paid another visit to Youngstown this week. He is expected back on Saturday.

Mrs. Elmer Jones returned on Saturday evening last from Stantonia, Sask., where she has been visiting her mother.

Edward Miller and son, Jesse, returned to Calgary Wednesday morning after a two days' visit at J. W. Frasers.

Cadet John Amundsen has had an extension of time allowed him and will probably not return east until the 1st of October.

Rev. and Mrs. Locke returned from Banff on Tuesday night. Mr. Locke will occupy his own pulpit next Sunday morning and evening.

Cadet McKenna has already started to go. He is the first of the Claresholm boys to go up and seems to enjoy the experience.

Services will be held next Sunday in the Lutheran Church, Claresholm, at 11 a.m. Rev. H. G. Pattand, the new pastor, will be in charge.

Pte. H. B. Duffy was reported sick in a Red Cross Hospital, England, this week. His case is not thought to be serious.

A. McEwan, of Champion, was taken down to Lethbridge at the weekend by the A.P.P. to serve a three month's sentence on a charge of stealing grain.

Mrs. Jas. Armstrong and son returned on Thursday morning from Medicine Hat, where they have been visiting Mrs. Armstrong's father for the past month.

Dad says:—He is going to spend the winter in a town big enough to enable him to doge Gale Henry, in the spring he will side-step sweet Gale among the willow brush of Buffalo Lake.

Rev. and Mrs. Pattand arrived in town on Monday from Camrose. Mr. Pattand has charge of the Scandinavian Lutheran Mission in southern Alberta. He intends making Claresholm his headquarters.

The Kingcote sale, at the Fair grounds on Sept. 25th, promises to be one of the biggest sales held in this district for some years. A. E. Strange is already getting his vocabulary in shape.

A. H. Wallis, who has been running the dining room at the Wilton Hotel is starting again at his old trade as a painter. He is now open to receive orders. His contemplated change to Vancouver has been postponed indefinitely.

In a letter received from Gunner Arnold Fraser, who was wounded on August 14, and who is now in an American hospital in France, he states that he is due to be transferred to a base hospital and will soon be again in the trenches.

Major G. H. School has gone to the mountains on a tour of discovery. He took with him a full camping outfit and is full equipped to tackle anything from a coyote to a grizzly bear. He expects to climb to the summit of the Rockies and spend one night at least nearer heaven than the rest of us.

Miss Anna Holland, who taught at the Grain Belt school this past year, has returned after vacation at her home in New Brunswick; and after spending two weeks at the Pfeister home for Medicine Hat, she is expected to begin a term of school Monday.

Miss Holland reports excellent crops through the eastern provinces and the fishing industry, as a whole is up to the standard.

Dr. McMillan left today for a ten days vacation in the mountains.

Born to Mr. and Mrs. Frank Wall, on Wednesday morning, a daughter.

Mrs. Elmer Jones has a sister from Chinoak, visiting her this week.

Mrs. Wood and daughter left for Montana on Monday to spend the winter with her mother.

Miss Marjorjorie, who has been visiting Miss Ruth Annable, returns on Monday to her home in Saskatoon.

Laurel Whitehead has enlisted and leaves home next week. His sister, Mrs. Annable, left today for Regina to see him before he leaves for overseas.

A couple of bootleggers from Montana struck a piece of hard luck last Sunday. They had just arrived at Cochrane with a good load of whiskey in their car. The very first man they offered to sell whiskey to happened to be a member of the provincial police force for Alberta. Of course the couple wanted some whiskey. He wanted it so bad that he took the whole load and the vendors along with it.

Many of the patrons of the Review-Advertiser have accepted our offer to send this paper free, on the payment of postage, to soldiers overseas. We would call attention to the fact that on a considerable number of these true copies the time to which postage was paid has expired. If you desire to have us continue sending the paper please call and let us have the amount of another year's postage. Otherwise it will be necessary for us to discontinue sending the paper.

John Carlson reports having discovered poison rings on his fruit bottles. The smell of phenol was so strong that he says it was impossible to use the fruit. So far only the red rubber rings are thought to have been poisoned. After being told they are perfectly safe to use. The government investigation shows that a large quantity had been tampered with by Han agents. An attribute is being made to locate the criminals guilty of the outrage.

TO BE GIVEN IN ST. JOHN'S PARISH HALL, CLARESHOLM, 1918-19, AT 8:30 P.M.

The following program has been arranged by Rev. J. Phoenix for the coming fall and winter months:

THE TOWN BAND

A GOOD BAND IS AN ASSET TO ANY TOWN. WITHOUT ONE A TOWN IS A CEMETERY

WHERE IS THE CLARESHOLM BAND?

In speaking about bands, and town bands in particular, we sometimes hear people carelessly say, "What good is a band in town anyway?" Well, they take inventory of the town and make the remark. You may have reason to allow the silly question to be unanswered. But regarding the remark more seriously, let us say that a good band is one of the most useful things a town or community can possess. It is one of the best advertisements a town can have. Emerson says something about the world making a better place by the good band will own beaten paths, even though the town's other attractions be not numerous. Every merchant is benefited by a good band. Many people come to town to attend the delightful entertainments and they combine shopping with the pleasure. The promoters of business and musical enterprise always have the satisfaction of knowing that their civic demonstrations, from time to time will be successful, because they have, a first-class band to lead the way and attract the people.

The churches are provided with orchestras and special musical numbers on anniversary and jubilee occasions. The social functions of a community are more satisfactory and decidedly more pleasant because musicians equal to any occasion are at hand. A band composed of able players is a tower of strength to any town or section of country. It cultivates the public ear to a high class of music and does it right at your door. To every enterprising citizen will boost the band of his town wherever he goes.

BRIGADIER GENERAL HOLY'S ADVICE ON SUPPLYING THE SOLDIERS WITH THE SCRIPTURES

I recommend that the New Testament be first given to our soldiers in the trenches. "Over the top" is the stress of great endeavor, and in the constant presence of death, this book will bring comfort, which none other can give.

EXTRACTS FROM COLPOURTER

BRONNUM'S REPORT FOR JULY

"The most of my time has been spent this month on the St. Joseph and Allan's Lakes, part of this section has never been visited before. The Scriptures have been circulated over 215 miles of territory. 75 calls have been made upon families representing 14 different nationalities. Eleven different nationalities have been reached. The Scriptures, a Bible or a few Testaments. Five nationalities were working on the railway. Four nationalities of coal mines. Several two copies of the Scripture sold in non-English towns. Two thirds of these people never owned a Bible or a New Testament before. I am thankful to the Lord for every blessing that has come to me, and I thank Him who has so graciously received the word of God."

FRENCH FARMERS SAVED THE DAY

The saving farm is a national asset. Canadian progress today in all lines attests magnificently to the splendid qualities of thrift that have marked the farmers in the provinces. The total returns from field crops and animal produce have been only possible because of the disposition to make the most of the economic way of all the wonderful gifts of providence in this good land of ours.

The same was said in the year 1870 in France when frugal, thrifty farmers of that fair land made it possible for the Republic to pay off that hated German war indemnity of two billion francs levied against them. The same spirit of national thrift built up France for the present test today—a test that is being tried by fire.

France, be French farmers is proving true. The line is holding. The blood of the farmers is flowing equally as well through the veins of France's daughters, and the sons of the national strength bends but does not break.

Canada is reaping her harvest of increased returns and money is being made as never before. Our farmers are earning the gratitude of all in their splendid efforts at production. That they will carry into their savings an equal foresight in conserving their purses against the production days of darkness and lower prices will be equally praiseworthy. He is well advised who saves his extra dollar until he sees what the future of tomorrow will bring. Adversity blows a chill blast where there is no dollar in the savings.

A NEW MAP OF NORTHERN ALTA.

There has been in preparation for some time in the office of the Natural Resources Intelligence Branch, Department of the Interior, Ottawa, a new edition of a map much sought after by prospective settlers in western Canada, namely the Northern Alberta Homestead Map, on a scale of 1:25 miles to the inch.

The new issue is most comprehensive in the information contained in an elaborate color scheme, the vast land area involved is divided in such a way as to indicate clearly the disposition of the whole. The various colors represent: Land finally disposed of; lands entered for but not patented; forest reserves; timber berths; grazing leases; dominion parks and Indian reserves; also the boundaries of the Dominion Land Agencies and the location of Land Offices. In addition to the general direction of coal seams, outcrops of tar sands, gas and oil borings, is indicated.

Several new features included in the map just being published are especially worthy of note. Rectangular spaces in light blue, for instance, show the lands reserved exclusively for the use of the returned soldiers. All those lands south of the red hatched line which may become available for entry as a result of cancellation or abandonment are also reserved for the same purpose.

Persons desiring copies of the map may obtain them from the Superintendent of the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

WAR GARDEN ACHIEVEMENTS

The 175 acres of waste land brought under cultivation by the Vacant Lots Cultivation Association of Toronto, in co-operation with the local Rotary Club, will yield no less than \$85,000 in produce this year, according to officials of the Association.

The Vacant Lots movement represents only one-fifth of the total amount of gardening which has been done in Toronto this summer. The total acreage under garden cultivation in Toronto is placed at 1,375 and the value of the produce raised this year will be about \$425,000. There are close to 10,000 gardens in the city.

The Vacant Lots Cultivation Association and the Rotary Club have done splendid work this year in helping to popularize the home-garden movement. In 1916, the association followed up 300 gardens; the following year this number was increased to 526, while this year there are roughly 2,400 gardens under the direction of the Vacant Lots Cultivation Association.

DISTRIBUTION OF TRACTORS

Complete reports on the distribution of Fordson tractors which were made available by the Canada Food Board to the Canadian farmers at cost and which helped materially to increase the acreage in crop this year show that 1,073 tractors were purchased. Two hundred were taken in Ontario; 9 in Quebec; 5 in New Brunswick; 14 in Nova Scotia; 4 in Prince Edward Island; 143 in Manitoba; 349 in Saskatchewan; 327 in Alberta and 20 in British Columbia.

OUR ALLIES' FOOT POSITION AND OUR OWN STILL DEMANDS—

That production and conservation efforts be NOT relaxed. That the regulations of the Canada Food Board be strictly observed (any or all of these will be withdrawn as soon as conditions warrant, as has been done in the case of pork).

That the utmost effort be made to save all crops in special obligation rests upon city men to see that no part of this year's harvest be lost made available by the Canada Food Board.

That preparation be made at once for increased production of food next year.

"That waste or extravagant use of food in any form be avoided; That, as far as possible, perishable foodstuffs be frozen, be substituted for those food commodities required overseas;

That no sugar be used for any unnecessary purpose;

That the public patronize only those dealers in foodstuffs who are complying fully with the Food Board's regulations;

The Moose Jaw farmers are on strike, for an increase of pay.

DEFATING FAMINE

(From the Manitoba Free Press.) "The great danger, which but few realized, that the Allied nations in Europe would be forced to make good by food shortage had the revolution and self-sacrifice of the people of Canada and United States been averted. The food situation in Great Britain, France and Italy has passed through its worst phases and the spectre of famine has vanished. A very large measure of this must be given to the Food Board at Washington and Ottawa, but they could have done nothing without the hearty support of the people."

HAIL STORM NEAR NANTON

There was a hard hail storm last Saturday afternoon north and east of town, but we have not learned how wide the hail strip is. It apparently started north of Calgary and near River, and travelled in a southeasterly direction, and all accounts agree that it was one of the worst our country has ever had. At J. H. Chandler's place about a hundred chickens were killed, and at Hester's place, in the north-west corner of the section, was about a mile wide. Fortunately nearly all the grain was in stock, but the loss was heavy, and what was standing was beaten into the ground. We have not heard how far southeast it extended.—Nanton News.

POISON FOR MEDICINE

Intending to give her young son a dose of medicine, Mrs. R. Martin gave her three year old son a small quantity of lysol yesterday. The mistake was not made until the poison had reached the child's lips, but a portion of the deadly liquid was swallowed. The little child was placed in the hospital immediately and every attention was given it. At a late hour today the little patient was doing as well as could be expected and it is thought that he will recover. The dose was exceedingly small, as the mother noticed the mistake, as she was about to pour the liquid down the child's throat, but a few drops from the spoon was almost sufficient to cause death.—Hanna Herald.

HELP THE BOYS 'OVER THERE' BY SAVING GASOLINE

The Allies need gasoline. Waste none of it on Sunday motoring for pleasure. He who uses it for this purpose, stints those who are fighting our battles. It is the duty of all motor car owners to comply with the Fuel Controller's request to save "gas."

The safety of the State being the paramount consideration, every citizen must give place to national necessity during war time. To save gasoline is to save money. It will also ensure a more adequate supply of "gas" for the needs of our war machine, which must look no essential. To comply with the Fuel Controller's request to save \$150,000 on a single Sunday, in gasoline it will also save hundreds of thousands of gallons of oil. To the wise motor car owner is word!

A SOLDIER UP FOR HORSE STEALING

George Greer Cline of near Champlain appeared before the local J. P. on Saturday last at the police barracks to answer the charge of stealing a valuable mare, the property of Mr. George Todd, of Vulcan. After hearing the evidence for the prosecution and a statement from the accused, he was sent for trial to the Court of High Jurisdiction at Lethbridge. Cline appeared in uniform, having been at Sarcee camp as a draftsman.

It appears that Cline found the mare, and without making any enquiries as to whose it was, he took it to his home. For further interest, the latter he took down to Montana for sale. Mr. Todd values his horse at \$500.00.—Vulcan Advocate.

OUT-HERDING HERD

The Crown Prince of Germany for the moment out-Huns his horse. The Kaiser, in the message to his people which most of us have read, felicitated, then, in chastened mood, upon having escaped the horror of the war in his own land. The Crown Prince, explaining his gigantic failure on the Marne, his father's subjects rejoice in victory for "another region of France has been devastated." Attends the Kaiser's dol, put his methods of warfare into a phrase, "Guns do not grow where my horse has once trod."

Again prophecies are being made that the election will be held in England. Windermere, his English correspondent, sets the date for the latter part of November.

NEWS OF THE PROVINCE

The town council of Bow Island has adopted a resolution providing for the construction of a large amount of concrete sidewalk at the expense of the town, and for the saving of the sum of \$10,000 to pay the cost of construction. \$4,300 of this sum is to be raised by special frontage assessment and \$5,000 by general taxation.

The town council have decided to give all patron of the electric light, the right to use the power to the extent of 146 watts or one horse power, for the small rental of \$1.00 per month. This seems a very reasonable offer as we can easily have an extra heater at a minimum expense.—Cochrane Advocate.

The province of Alberta made a mighty good showing at the Toronto Exhibition in its Dairy Products, capturing many prizes, and with its well established dairy institutions did not have a look in, all of which speaks well for the dairying industry of this province.

The Dominion Government has set the price of wheat at \$2.45 for this year's crop. This is the price was expected, considering the action of the United States. The increase in price from \$2.11 is mainly for the purpose of meeting the increased freight rates and the price of the consumer will be the same as last year.

Bassano is opening a town coal mine. The price has been placed at \$10.00 per ton for run of mine coal, but subject to change.

Lieut. C. A. Grant, K. C., of Edmonton, the lawyer who drafted the Alberta prohibition act, was mortally wounded in action on August 31st, and died Sept. 2nd.

Manville district has the honor of maintaining the first hospital in the provincial hospital scheme, which has been under way for the last couple of years. The scheme was submitted to the province in the manner provided by the provincial hospital act, and passed by a very big majority. The results of the polls showed that more than the two-thirds vote required by the act had been secured in favor of a district hospital.

WITH THE AMERICANS ON THE METZ

"Sept. 14—The Hindenburg line is under continuous shelling from heavy and light American guns. Numbers of Germans have been caught behind the American lines and work of mopping up the salient is in progress. It is now permissible to state that the task of wiping out the salient, which had existed for four years, was actually achieved in 27 hours. The German defense was so caved in that the Americans advanced hours ahead of their timetable everywhere. The Allies retain supremacy of the air, completely preventing German attempts to attack with machine guns and bombs the roads which are busy with traffic.

London, Sept. 12.—The war office was all smiles today. The general military view focused by Haig's noteworthy phrase, "The enemy has now spent his efforts." Field-Marshal Haig is noted for his capacity to weigh the exact value of his word. No man is less given to impulsive verbiage, hence those who should know best interpret his phrase as meaning that our victorious progress must continue.

All hostilities of the German high command about standing on sure lines to face and overwhelm the Allied armies are now seen to peter out in isolated counter-attacks. Only a great general German counter-blow could change the decisive aspect of the battle. No such a counter-blow is anticipated as possible. The conclusion drawn is that the morale of the enemy's forces and the material of his command are unequal to a supreme effort which any such rally would demand.

It is from the returned soldiers of the rank and file, that one hears the most optimistic talk at the moment. They say in effect, "We of the British Empire and the French can and will drive the enemy out of Belgium this year." The Americans have their surprise packet yet, our united armies will do the rest. Let our fliers in their thousands get above Bess, Berlin, Fottan, and the fall in the German morale which we now see in the German army will be speeded up against the civilians to the point of collapse."

Officers from the front are, however, more pessimistic. They say, "The end may come next summer, or if the German organization can work its wonderful way in the fall it may be delayed another two years."

Probably the safest word at the moment is that of a divisional commander who when asked when the war would end, replied: "I don't know, and you don't know. I wouldn't give a cent for the opinion

A report is being circulated that the ex-Empress of Russia and her four daughters have been murdered by the Bolshevik forces. The Pop, of Rome, however, does not credit this report, and says the Empress and her daughters are expected to arrive at a Spanish port on board the *Pradal* at

Premier Stewart, of Alberta, is not among those who think the war will soon be over. He is of the opinion that peace by negotiation is impossible. The only way to bring about a lasting peace is to thrash Germany on the field of battle, and that will take some time yet.

At Local Theatres

"A BROADWAY SCANDAL"

David Kendall and his father run a private sanatorium and hospital in the heart of the city of night. A French girl, Ninette, is brought with a bullet wound in the shoulder. The circumstance is suspicious, but young Kendall who is usually intricated, does not report the matter to the police. As she recovers, Ninette falls in love with the handsome son of the doctor, and he would have fallen in love with her except that he had a notion that all French women were shallow, unconventional and not to be taken seriously. When Ninette discovers that Kendall's attentions have no matrimonial intent she is heart-broken, and returns to her father's home and continues dancing in his cafe in spite of the offers of several theatrical managers who have seen her dance. But Kendall pursues her to the cafe just as she has consented very reluctantly to marry a man for whom she does not care. She is arrested but not sentenced. The disgrace causes her father to drive her from home and she goes on the stage. Kendall volunteers for medical service at the front and there meets a girl of valor and wonderful devotion of French women he learns the respect the lack of which had caused bitterness in his lives.

The show features it to be shown at the Rex Theatre on Friday and Saturday, Sept. 20 and 21.

C. N. R. EMPLOYEES TAKE STRIKE VOTE

Edmonton, Sept. 18.—A strike vote is now being taken among the C.N.R. employees, members of the Canadian Brotherhood of Railroad Employees, throughout the system west of Winnipeg.

The reason for the vote being taken, according to statements made to the Trade and Labor council on Monday night, is the refusal of the railway company to consent to the board of conciliation reconsidering a number of points in the schedule alleged to have been recently negotiated.

The strike vote is being taken as the result of resolutions passed by the general grievance committee to cover western roads and it was stated that results of the vote from local unions were all in favor of a strike, provided that the railway company did not consent to the reconsideration.

New Zealand claims to have raised 100,000 men more in proportion to population than any other Dominion.

U. S. ship-yards last month turned out sixty-six ships, with an aggregate tonnage of 240,000 tons. British yards produced 124,000 tons. How many vessels the submarines sent down during the month has no yet been announced, but the wreckers have been busy if they kept pace with the Allied yards.

PROOF THAT THEY WERE IN PAY OF GERMANY

Proofs removing any doubt that Lenine and Trotsky, the Bolshevik leaders are paid German agents—no need if any doubt remains—are laid before the world today by the United States government in the first instalment of an amazing series of official documents disclosed through the committee on public information.

Secured in Russia by American agents, these documents not only show the German government thru its imperial bank paid its gold to Lenin, Trotsky and their immediate associates to betray Russia into deserting her allies, but give added proofs, if any were necessary, that Germany had perfected her plans for a world conquest long before the assassinations at Sarajevo, which as the world now is convinced, eventually furnished her pretext. These documents further show that before the world war was four months old and more than two years before the United States was drawn into it, Germany was already setting plans to "mobilize" its forces against the strikes and outrages in this country, and planned the employment of "anarchists and escaped criminals" for the purpose.

Almost ranking in their sensational nature with the notorious Zimmerman note proposing war with Mexico and Japan upon the United States, which was first given to the world through the Associated Press, these documents lay bare a new strain of Prussian intrigue, a new view of the workings of Kultur to disrupt the allies, standing between the world and kaiserism. They disclose, a new story of human treachery for gold which might almost well be described with aptness as placing its perpetrators on a pedestal with Judas and his 30 pieces of silver. The intrigue appears to date, been carried down to the last detail of arrangement with typical German system. It will be revealed completely in a series of seven articles furnished by the committee on public information for publication each morning, beginning on Sept. 16 until the series is completed.

Not only do the disclosures prove that Lenin, Trotsky and their band are paid German agents. They show the Bolshevik revolution, which threw Russia into such a cry of murder and excesses as the world has seldom seen, actually was arranged by the German staff. They show how traitors agents betrayed Russia at the "Great-Litovsk" "peace" conference, how German staff officers secretly have been received by the Bolsheviks as military advisors; how they have acted as spies upon the emissaries of the nations with which Russia was allied or at peace; how they actually have, directed the Bolshevik foreign, domestic and economic policy wholly in the interest of Germany and the sham, and degradation of Russia.

They show how a picked German commander was detailed to "defend" Petrograd against the German army and the extent of German intrigue and domination almost beyond the realm of imagination.

Originals of the documents, photographs of originals and typewritten circulars, some of them marked "very secret" or "private," and many of them bearing the annotations of the Bolshevik leaders themselves; some of them containing references to "Comrade Trotsky" or "Comrade Lenin" comprise the damning record. Some of the originals, it is shown, although deposited in the secret archives of the Bolsheviks, were required to be returned later to representatives of the German staff in Petrograd that they might be destroyed, but evidence of them remained in the fabric of rogues, and into the vacancies they fit perfectly. The Bolshevik leaders themselves informed their "comrades" that the German government had required the return of the order of the German imperial bank depositing 60,000,000 gold rubles in a Stockholm bank "had been audited" to conceal the payments.

The first instalment of the revelations appearing herewith is prefaced by an official statement by the committee on public information that the succeeding instalments of the document will prove.

MEADOW CREEK RIPPLES

We notice in last week's issue of the Review in the Meadow Creek Ripples that some of the W. B. S. S. whose names were mentioned, had given a party to the Victoria.

If certain other W. B. S. S. would devote their time and attention to Red Cross work instead of to causing strife and insults upon the vicinity in general, surely they would show more wisdom and be more patriotic and wait the arrival of the Claresholm Review to learn the news of their neighbors. We would enjoy the Meadow Creek Ripples much more if they riddled into news or locals as much as to stirr cast large.

Farmers are Stopping the Profit-Eating Leaks This Year

Comparatively few farmers fail or lose heavily because of misfortune such as fire, wind or drought. The majority of failures and losses are from combined little leaks, and it is the many little leaks that are being studied and stopped.

HERE ARE SOME OF THEM—Feeding Wastes, Disease from Unsanitary Buildings, Unprotected Machinery. There are others but here are enough to kill the profits on any farm.

THE REMEDY—Concrete Granary Foundations and Floors, Concrete Barn and Hog House Foundations, a Machine Shed. None of them are expensive and each will quickly pay itself. Call and let us give you prices.

ACTIVITY ON EASTERN FRONT

London, Sept. 16. (Canadian Press, dispatch from Reuters' Limited).—Reuters' hears that after an intense artillery fire, the French and Serbian troops yesterday attacked the most powerful Bulgarian positions that had been organized, and for the first time in over two years. The whole position on a front of fifteen kilometers. Fifteen hundred men were taken prisoner and a great number of guns and material were captured.
